Achievements/Tasks
- Developed and maintained various webbased applications using JAVA Mysql.Developed user interfaces for web applications using JavaScript, HTML and CSS

Contact : Shivakumar - 9885521047

SKILLS

java   HTML CSS   Mysql   Angular

Springboot

PERSONAL PROJECTS

Virtual Tour Guide Web Application (04/2023 - 05/2023)
- I led the development of a feature- Virtual Tour Guide Web Application, showcasing my expertise in full stack development, UI/UX design, and database management. I built the application from scratch, integrating front & backend components for a seamless user experience. Key accomplishments include designing registration page, developing a secure login page with database verification, and implementing redirect functionality for optimized user navigation. Throughout the development process, I utilized Angular for the frontend interface & Spring Boot for efficient backend operations And REST API'S. The application relied on the MySQL database system for reliable data storage and retrieval. In addition to my technical contributions, I actively participated in agile software development ensuring high quality design and implementation. I have a strong command of Java and JavaScript, with excellent debugging and optimization skills. As a Tour Guide and Full Stack Developer, I have proven my ability to contribute to cutting-edge web applications.

CERTIFICATES

full stack developer (11/2022 - 05/2023)
In My training, I gained hands-on experience working on various projects and honing my skills in web development. I collaborated with a team of experienced developers to develop and maintain web applications using technologies such as Java and Spring Framework. During this time, I contributed to the development of responsive and user-friendly web interfaces, implemented new features, and resolved technical issues. I also participated in code reviews and followed industry best practices to ensure the delivery of high-quality code. Overall, my training experience provided me with practical knowledge and a solid foundation in web development.
